Create UPS.com Log In

Introduction

This document walks you through the steps to create a **UPS.com** user account to link it to **UPS** applications and activate the account. To avoid disruption, do not use the existing username and password used for your current process. You will not need to share your password with anyone including UPS personnel; however, your account representative will need your username if helping to link shipper accounts.

Create User Account on UPS.com

1. Go to **UPS.com** Home page and click **Log In**. The Log In page appears.

You will be directed to the Sign Up page. Do not use an existing account or a social media account. Do not share this password with anyone at UPS®. You may need to share the username if you need help with attaching shipper accounts to this user.

2. On the Log In page, click **Sign Up**.

Log In

[Forgot Username/Password](#)

Or log in using one of these sites

3. Enter the following information on the **Sign Up** page:

First and Last Name	<i>no email address, no special characters, and no URLs</i>
Email address	<i>Use a business email address, it is recommended to use a team mailbox</i>
Country Code	
Phone Number	<i>The phone number point of contact should UPS need to reach you regarding this account</i>
Username	<i>Must be 1 to 16 characters long, no spaces, no email address, no special characters, and no URLs</i>
Password	<i>Must be 12-26 characters long, must have at least one special character, one number, one upper case, and one lower case letter</i>
UPS Technology Agreement	<i>Must read and click agree</i>

4. Click **Sign Up** to create your profile.
